## NOMENCLATURE DOCUMENTS

The nomenclature of peptide hormones. Recommendations (1974). IUPAC–IUB Commission on Biochemical Nomenclature. 1

Nomenclature of Carotenoids (Recommendations 1974). IUPAC Commission on the Nomenclature of Organic Chemistry & IUPAC–IUB Commission on Biochemical Nomenclature 5

## FULL PAPERS

PAGE

**Proteins**

Physicochemical characterization of the four-iron–four-sulphide ferredoxin from *Bacillus stearothermophilus*.
*By* R. N. Mullinger, R. Cammack, K. K. Rao, D. O. Hall, D. P. E. Dickson, C. E. Johnson, J. D. Rush & A. Simopoulos 75

The primary structure of troponin T and the interaction with tropomyosin.
*By* P. Jackson, G. W. Amphlett & S. V. Perry 85

Phosphorylation of the light-chain components of myosin from cardiac and red skeletal muscles.
*By* N. Frearson & S. V. Perry 99

*Appendix:* Calculation of the charge of the phosphorylatable light-chain components of myosins from different muscle types.
*By* N. Frearson 107

A theoretical approach to the binding of amphipathic molecules to globular proteins.
*By* M. N. Jones 109

**Nucleic Acids**

The mechanism of polyribosome disaggregation in brain tissue by phenylalanine.
*By* F. Taub & T. C. Johnson 173

**Carbohydrates**

Poly(glucosylglycerol phosphate) teichoic acid in the walls of *Bacillus stearothermophilus* B65.
*By* A. J. Anderson & A. R. Archibald 115

A comparative study between a chondroitinase B and a chondroitinase AC from *Flavobacterium heparinum*. Isolation of a chondroitinase AC-susceptible dodecasaccharide from chondroitin sulphate B.
*By* Y. M. Michelacci & C. P. Dietrich 121

PAGE

Proteoglycans of hyaline cartilage. Electron-microscopic studies on isolated molecules.
*By* J. Thyberg, S. Lohmander & D. Heinegård 157

**Enzymology**

*Oplophorus* oxyluciferin and a model luciferin compound biologically active with *Oplophorus* luciferase.
*By* I. Yamaguchi 9

Immunochemical relationship between α-amylases of rat liver, serum, pancreas and parotid gland.
*By* M. Messer & R. T. Dean 17

Adenosine 3′:5′-cyclic monophosphate-dependent and plasma-membrane-associated protein kinase(s) from bovine corpus luteum. Properties of associated enzyme and phosphorylation of specific plasma-membrane proteins.
*By* S. Azhar & K. M. J. Menon 23

The investigation of substrate-induced changes in subunit interactions in glyceraldehyde 3-phosphate dehydrogenases by measurement of the kinetics and thermodynamics of subunit exchange.
*By* H. H. Osborne & M. R. Hollaway 37

A quenched-flow study of the reaction catalysed by creatine kinase.
*By* Y. Engelborghs, A. Marsh & H. Gutfreund 47

The reaction of *Pseudomonas aeruginosa* cytochrome *c* oxidase with carbon monoxide.
*By* S. R. Parr, M. T. Wilson & C. Greenwood 51

The reversible delipidation of a solubilized sodium-plus-potassium ion-dependent adenosine triphosphatase from the salt gland of the spiny dogfish.
*By* P. Ottolenghi 61

PAGE

*S*-Adenosylmethionine decarboxylase from baker's yeast.
*By* H. Pösö, R. Sinervirta & J. Jänne 67

A rapid $NAD^+$-linked assay for microsomal uridine diphosphate glucuronyltransferase of rat liver and some observations on substrate specificity of the enzyme.
*By* G. J. Mulder & A. B. D. van Doorn 131

Some enzymes present in the walls of mesophyll cells of tobacco leaves.
*By* K.-H. Yung & D. H. Northcote 141

PAGE

The purification and properties of a β-*N*-acetylhexosaminidase from *Trichomonas foetus*.
*By* R. G. Edwards, P. Thomas & J. H. Westwood 145

Subtilopeptidase A isoenzyme system. Interaction with serum components and its importance for quantitative immunoelectrophoresis.
*By* R. Verbruggen 149

Fructose 1,6-diphosphate aldolase from rabbit muscle. Effect of pH on the rate of formation and on the equilibrium concentration of the carbanion intermediate.
*By* E. Grazi 167

## SHORT COMMUNICATIONS

PAGE

**Proteins**

A temperature-jump study of the reaction between azurin and cytochrome *c* oxidase from *Pseudomonas aeruginosa*.
*By* M. Brunori, S. R. Parr, C. Greenwood & M. T. Wilson 185

Purification of insect myosin and α-actinin.
*By* K. S. Hammond & D. E. Goll 189

PAGE

The transport of 25-hydroxycholecalciferol in a New World monkey.
*By* A. W. M. Hay 193

**Enzymology**

An improved method for purifying sialidase.
*By* M. J. Geisow 181

## Contents of Volume 151, No. 2

### FULL PAPERS

PAGE

**Proteins**

The amino acid sequence of *Staphylococcus aureus* penicillinase.
*By* R. P. Ambler 197

The preparation of a semisynthetic tritiated insulin with a specific radioactivity of up to 20 curies per millimole.
*By* P. A. Halban & R. E. Offord 219

Protein chromatography on adsorbents with hydrophobic and ionic groups. Some properties of *N*-(3-carboxypropionyl)aminodecyl-Sepharose and its interaction with wheat-germ aspartate transcarbamoylase.
*By* R. J. Yon & R. J. Simmonds 281

Sequence studies on the constant region of the Fd section of rabbit immunoglobulin G of different allotype.
*By* D. M. Pratt & L. E. Mole 337

PAGE

A genetic marker in the variable region of rabbit immunoglobulin heavy chain.
*By* L. E. Mole 351

**Nucleic Acids**

Role of apurinic sites in the resistance of methylated oligodeoxyribonucleotides to degradation by spleen exonuclease.
*By* G. P. Margison, P. J. O'Connor & A. Cornish-Bowden 249

Isoaccepting lysine transfer ribonucleic acid species of *Pseudomonas aeruginosa*.
*By* B. Thimmappaya & J. D. Cherayil 377

**Lipids**

The radioimmunoassay of steroid glucuronides. The oestrogen C-3 glucuronides as haptens.
*By* P. Samarajeewa & A. E. Kellie 369

PAGE

**Carbohydrates**

A membrane-associated lipomannan in micrococci.
*By* D. A. Powell, M. Duckworth & J. Baddiley 387

**Small Molecules**

Radioimmunoassay of colchicine.
*By* C. Boudene, F. Duprey & C. Bohuon 413

**Enzymology**

Deoxyribonucleic acid polymerases of *Euglena gracilis*. Purification and properties of two distinct deoxyribonucleic acid polymerases of high molecular weight.
*By* A. G. McLennan & H. M. Keir 227

Deoxyribonucleic acid polymerases of *Euglena gracilis*. Primer-template utilization of and enzyme activities associated with the two deoxyribonucleic acid polymerases of high molecular weight.
*By* A. G. McLennan &. H. M. Keir 239

The separation of bovine brain *β-N*-acetyl-D-hexosaminidases. Abnormal gel-filtration behaviour of *β-N*-acetyl-D-glucosaminidase C.
*By* B. Overdijk, W. M. J. van der Kroef, W. A. Veltkamp & G. J. M. Hooghwinkel 257

Purification and properties of 6-phosphogluconate dehydrogenase from rabbit mammary gland.
*By* S. A. Betts & R. J. Mayer 263

Factorization of the Michaelis functions.
*By* H. B. F. Dixon 271

Purification and properties of oestrogen-induced uterine peroxidase.
*By* T. McNabb & P. H. Jellinck 275

PAGE

Affinity-chromatography purification of alkaline phosphatase from calf intestine.
*By* O. Brenna, M. Perrella, M. Pace & P. G. Pietta 291

Reversible modification of pig heart mitochondrial malate dehydrogenase by pyridoxal 5′-phosphate.
*By* S.-S. Chen & P. C. Engel 297

A product-inhibition study of bovine liver glutamate dehydrogenase.
*By* P. C. Engel & S.-S. Chen 305

The effect of acid proteinase inhibitors on chicken pepsin.
*By* J. M. Llewellin & M. L. Green 319

The purification and properties of pig spleen phosphofructokinase.
*By* P. E. Hickman & M. J. Weidemann 327

The nature of experimental error in enzyme kinetic measurements.
*By* A. C. Storer, M. G. Darlison & A. Cornish-Bowden 361

Purification and characterization of kynurenine–2-oxoglutarate aminotransferase from the liver, brain and small intestine of rats.
*By* T. Noguchi, Y. Minatogawa, E. Okuno, M. Nakatani, M. Morimoto & R. Kido 399

The effect of disulfiram on the aldehyde dehydrogenases of sheep liver.
*By* T. M. Kitson 407

A reporter group delivery system with both absolute and selective specificity for thiol groups and an improved fluorescent probe containing the 7-nitrobenzo-2-oxa-1,3-diazole moiety.
*By* T. Stuchbury, M. Shipton, R. Norris, J. P. G. Malthouse, K. Brocklehurst, J. A. L. Herbert & H. Suschitzky 417

## SHORT COMMUNICATIONS

PAGE

**Proteins**

Evidence for an active dimer of *Escherichia coli* *β*-galactosidase.
*By* C. M. Kaneshiro, C. A. Enns, M. G. Hahn, J. S. Peterson & F. J. Reithel 433

Ontogenetic study of a myelin-derived fraction with 2′:3′-cyclic nucleotide 3′-phosphohydrolase activity higher than that of myelin.
*By* T. V. Waehneldt 435

PAGE

**Nucleic Acids**

A 30S precursor of 30S ribosomes in a mutant of *Escherichia coli*.
*By* F. Markey & D. G. Wild 463

Heavy metal–pyrimidine nucleotide interaction: X-ray structure of a cadmium derivative of cytidine 5′-monophosphate.
*By* D. M. L. Goodgame, I. Jeeves, C. D. Reynolds & A. C. Skapski 467

PAGE

**Enzymology**

Differential effects of temperature on a membrane adenosine triphosphatase and associated phosphatase.
*By* J. A. Walker & K. P. Wheeler 439

The action of chelating agents on human liver aldehyde dehydrogenase.
*By* R. S. Sidhu & A. H. Blair 443

Dogfish $M_4$ lactate dehydrogenase: reversible inactivation by pyridoxal 5′-phosphate and complete protection in complexes that mimic the active ternary complex.
*By* S.-S. Chen & P. C. Engel 447

PAGE

Evidence that phosphatidylcholine and phosphatidylethanolamine are synthesized by a single enzyme present in the endoplasmic reticulum of castor-bean endosperm.
*By* J. M. Lord 451

Evidence for isosteric and allosteric nucleotide inhibition of citrate synthase from multiple-inhibition studies.
*By* S. Harford & P. D. J. Weitzman 455

An improved assay for bacterial methane monooxygenase: some properties of the enzyme from *Pseudomonas methanica*.
*By* J. Colby, H. Dalton & R. Whittenbury 459

## Contents of Volume 151, No. 3

### FULL PAPERS

PAGE

**Proteins**

The comparative specificity of three oestradiol-binding proteins. Rat α-foetoprotein, rat liver 17β-hydroxy steroid dehydrogenase and anti-(oestradiol - 6 - carboxymethyloxime – bovine serum albumin) antiserum.
*By* C. Laurent, S. de Lauzon, N. Cittanova, E. Nunez & M.-F. Jayle 513

Iron oxidation and transferrin formation by phosvitin.
*By* S. Osaki, R. C. Sexton, E. Pascual & E. Frieden 519

The distribution of different molecular species of collagen in fibrous, elastic and hyaline cartilages of the pig.
*By* D. R. Eyre & H. Muir 595

The polypeptide composition of bovine epidermal α-keratin.
*By* P. M. Steinert & W. W. Idler 603

Interchain disulphide bridges of mouse immunoglobulin M.
*By* C. P. Milstein, N. E. Richardson, E. V. Deverson & A. Feinstein 615

PAGE

Isolation and properties of a fragment of human serum albumin demonstrating the absence of a methionine residue from some of the albumin molecules.
*By* C. Lapresle & N. Doyen 637

Purification of the Thy-1 molecule, a major cell-surface glycoprotein of rat thymocytes.
*By* M. Letarte-Muirhead, A. N. Barclay & A. F. Williams 685

Purification of the Thy-1 molecule from rat brain.
*By* A. N. Barclay, M. Letarte-Muirhead & A. F. Williams 699

**Nucleic Acids**

Fractionation of chick oviduct chromatin. Nuclease-resistant deoxyribonucleic acid.
*By* J. F. Krall, S. H. Socher, N. T. Van & B. W. O'Malley 497

Effects of polyamines and methylglyoxal bis-(guanylhydrazone) on hepatic nuclear structure and deoxyribonucleic acid template activity.
*By* K. B. Brown, N. F. Nelson & D. G. Brown 505

PAGE

A micro-method for the assay of polyadenylate-containing ribonucleic acid by gel electrophoresis.
*By* F. J. S. Lara & M. C. Okretic 575

**Lipids**

Physical studies on phosphonium phosphatidylcholine. A unique [$^{31}$P]phosphorus nuclear-magnetic-resonance probe for model and biological membranes.
*By* E. Sim, P. R. Cullis & R. E. Richards 555

Characterization of pulmonary surfactant from ox, rabbit, rat and sheep.
*By* J. L. Harwood, R. Desai, P. Hext, T. Tetley & R. Richards 707

**Carbohydrates**

The copolymeric structure of dermatan sulphate produced by cultured human fibroblasts. Different distribution of iduronic acid- and glucuronic acid-containing units in soluble and cell-associated glycans.
*By* A. Malmström, I. Carlstedt, L. Åberg & L.-Å. Fransson 477

Characterization by gas–liquid chromatography–mass spectrometry and proton-magnetic-resonance spectroscopy of pertrimethylsilyl methyl glycosides obtained in the methanolysis of glycoproteins and glycopeptides.
*By* J. P. Kamerling, G. J. Gerwig, J. F. G. Vliegenthart & J. R. Clamp 491

Structure of keratan sulphates from various sources.
*By* H. U. Choi & K. Meyer 543

Studies of polydispersity and heterogeneity of cartilage proteoglycans. Identification of three proteoglycan structures in bovine nasal cartilage.
*By* J. J. Hopwood & H. C. Robinson 581

Influence of alanyl ester residues on the binding of magnesium ions to teichoic acids.
*By* P. A. Lambert, I. C. Hancock & J. Baddiley 671

**Small Molecules**

Synthesis of tritium-labelled isopenicillin N, penicillin N and 6-aminopenicillanic acid.
*By* J. J. Usher, B. Loder & E. P. Abraham 729

PAGE

Behaviour of tritium-labelled isopenicillin N and 6-aminopenicillanic acid as potential penicillin precursors in an extract of *Penicillium chrysogenum*.
*By* P. A. Fawcett, J. J. Usher & E. P. Abraham 741

**Enzymology**

Immunological characterization of human liver α-D-mannosidase.
*By* N. Phillips, D. Robinson & B. Winchester 469

The substrate specificity of thermomycolase, an extracellular serine proteinase from the thermophilic fungus *Malbranchea pulchella* var. *sulfurea*.
*By* K. J. Stevenson & G. M. Gaucher 527

Intramolecular electron transport in human ferroxidase (caeruloplasmin).
*By* M. De Ley & S. Osaki 561

Stimulation of rat liver β-galactosidase activity by ions.
*By* F. M. Baccino, M. F. Zuretti & L. Pernigotti 567

Further evidence for the concept of bovine plasma arylesterase as a lipoprotein.
*By* M. M. Don, C. J. Masters & D. J. Winzor 625

Evaluation of equilibrium constants for the interaction of lactate dehydrogenase isoenzymes with reduced nicotinamide–adenine dinucleotide by affinity chromatography.
*By* R. I. Brinkworth, C. J. Masters & D. J. Winzor 631

Purification and properties of a specific collagenase from rabbit synovial fibroblasts.
*By* Z. Werb & J. J. Reynolds 645

Immunochemical studies with a specific antiserum to rabbit fibroblast collagenase.
*By* Z. Werb & J. J. Reynolds 655

Rabbit collagenase. Immunological identity of the enzymes released from cells and tissues in normal and pathological conditions.
*By* Z. Werb & J. J. Reynolds 665

The reaction of choline dehydrogenase with some electron acceptors.
*By* M. C. Barrett & A. P. Dawson 677

Pig heart lactate dehydrogenase. Binding of pyruvate and the interconversion of pyruvate-containing ternary complexes.
*By* M. J. Boland & H. Gutfreund 715

## SHORT COMMUNICATIONS

PAGE

**Proteins**

A λ Bence-Jones protein in guinea pigs.
*By* F. K. Stevenson, L. E. Mole, C. M. Raymont & G. T. Stevenson 751

Crystallization of one of the chicken pepsinogens and its derived pepsin.
*By* M. L. Green 763

**Enzymology**

The binding of nicotinamide–adenine dinucleotide to glyceraldehyde 3-phosphate dehydrogenase from *Bacillus stearothermophilus*.
*By* G. Allen & J. I. Harris 747

PAGE

Isolation of membrane-bound renal kallikrein and kininase.
*By* P. E. Ward, C. D. Gedney, R. M. Dowben & E. G. Erdös 755

The action of hydrogen peroxide on the hydroxylation of *p*-coumaric acid by spinach-beet phenolase.
*By* P. F. T. Vaughan & R. J. McIntyre 759
